

Connect to course server via the CCEC VPN (Windows)

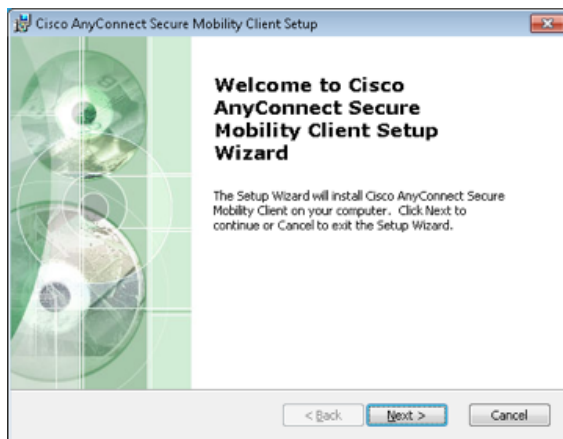

Install VPN client software (only has to be done once) by going to the following website: <https://ccec-vpn.unf.edu>

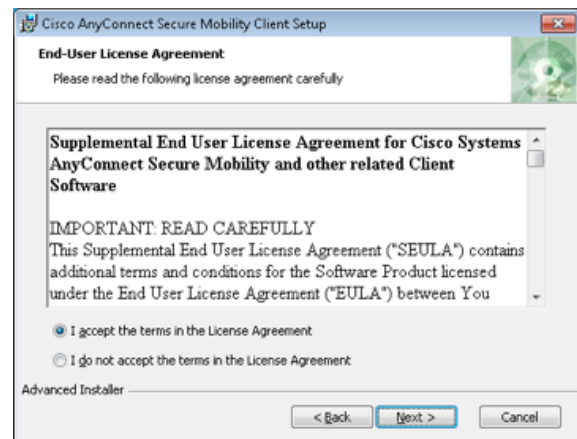

1 - Select group **CCEC-General-Lab**, and enter your UNF **N-number** and **password**. Click

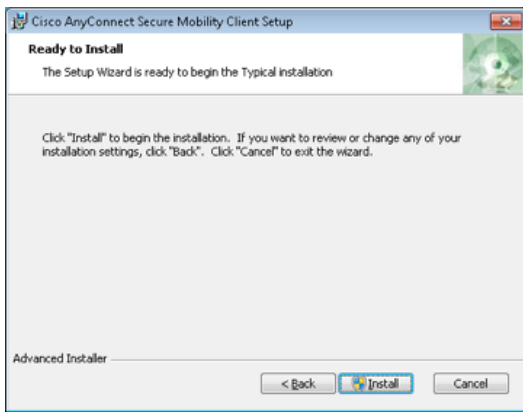

2 - Download and install the required software.

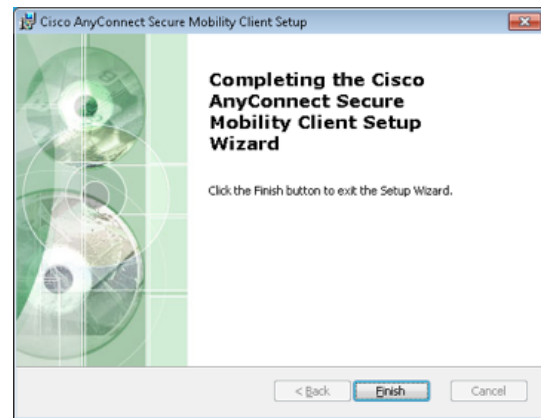

3 - Run **anyconnect-win-x.x.xxxxx-web-deploy-k9.exe** to install.

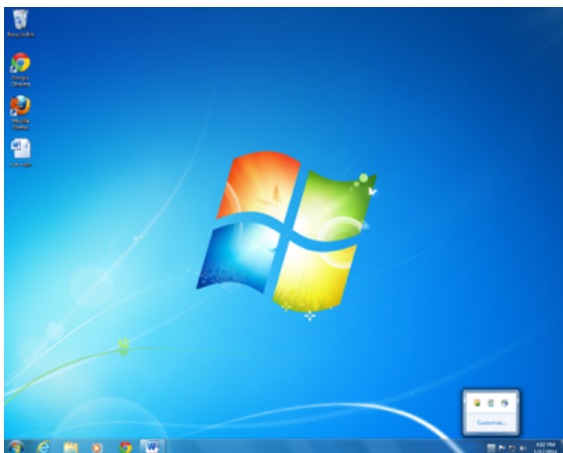

4 - Accept License agreement, Click **Next**.

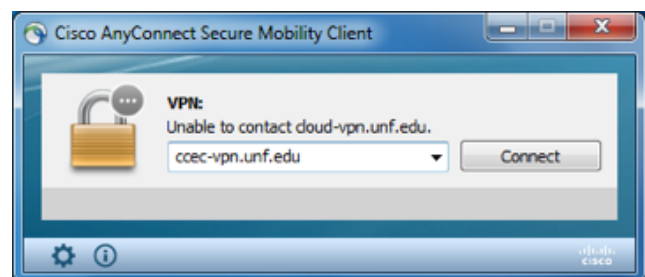

5 - Click

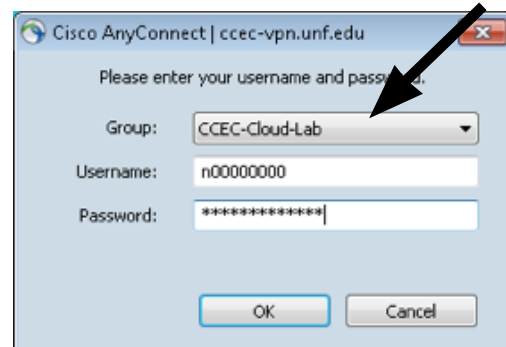

6 - Click **Finish**.

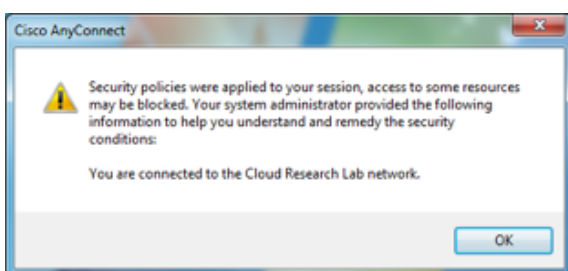

7 - Start the Cisco AnyConnect Secure Mobility Client by going to:
All Programs | Cisco | Cisco AnyConnect Secure Mobility Client and click Cisco AnyConnect Secure Mobility Client

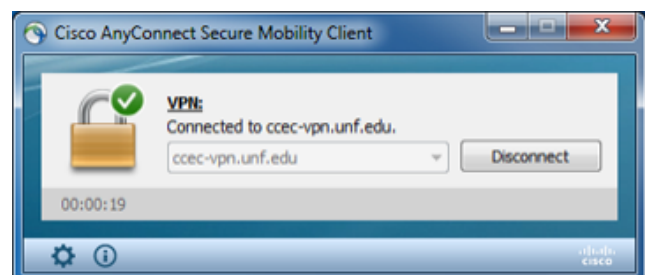

8 - Enter **ccec-vpn.unf.edu** and click **Connect**.

9 - Select **CCEC-General-Lab** for Group and enter your UNF N Number and password. Click OK

10 - Click **OK** and you're in!

11 - Before disconnecting, please log out of the server first! Then simply press **Disconnect** on the AnyConnect client.
